Lower part of ticket main section

ticket.image

is displayed at the top of the ticket all the time - no matter if the QR code is activated or not.

ticketDetails.main

ticketDetails.main are displayed in the lower part of the ticket. They are wrapped in grey boxes to catch user's attention to the most important information which are "seating details".

There is a chance to distinguish main ticket details in two different part - to seating details and the rest which is also valuable for the user to see at the first glance like gate opening, opening ceremony.

It's recommended to move the rest of details that doesn't bring much value to the user to extra ticket details like ticket number.

Key {Row} Value {1} Key {Seat} Value {12}

Key {Seat} Value {12} Key {Gates Open} Value {18:00} Key {Opening Ceremony} Value {19:00}

Key {Row} Value {1} Key {Seat} Value {12} Key {Gates Open} Value {18:00} Key {Opening Ceremony} Value {19:00}

ticketDetails.main - how to divide it visually?

Ċ	-I-I>	NG	D MAT	ГСН 1	
Event Name					
 Venue Name 21.11.2022 Start time 20:00 					
	ntrance ctor 12	Gate A	Row 1		
		Seat 12			
GATES OPEN		18	:00		
OPENING CEREMONY		19	:00		
TICKET KEPT FOR		John D	Doe		

Step 1. Seating details should non-seating details s Step 2. You need to define a Step 3. In ticketDetials.hiden above number If parameter is set to

TIXNGO

Seating details should be located at the beginning of ticketDetails.main, non-seating details should go after them.

You need to define a number of fields related to non-seating details (like in the example below = 2)

In ticketDetials.hiden you need to create a key of detailMainNotDisplayedinBoxes and value of defined

If parameter is set to 0/-1/not defined = TIXNGO system doesn't apply any changes to mobile UI

Example	Main Data	
	Key {Entrance} Value {Sector 12}	
	Key {Gate} Value {A}	
eating details	Key {Row} Value {1}	
Ad.1	Key {Seat} Value {12}	
ls not related	Key {Gates Open} Value {18:00}	
with seating	Key {Opening Ceremony} Value {19:00}	Ad.2

"Ticket kept for" is a fixed key that is always displayed and shows the person that a ticket is assigned to.

If a name on the ticket matches the person who is logged in to the app, a star icon is dispayed next to the name.

"Not assigned yet" is displayed when any ticket assigner was not provided.
