

Recite Me

Description

Recite Me is a cloud-based web accessibility assistive toolbar solution that allows website visitors to customise a site in a way that works best for them.

The Recite Me toolbar comprises a number of accessibility features that can either be used individually or combined to make multiple adjustments for ultimate ease of use. Users can:

- Personalise font size, type, and colour options to make each web page easier to read.
- Utilise the mask screen tool, which isolates parts of the page to help with focus.
- Use the ruler tool to make reading easier.
- Download content as an audio file as an alternative to reading.
- Convert page content into over 100 different on-screen languages.
- Have the page read aloud in a choice of 65 different languages.
