

Gestion des alias dans le module Vente ou la fiche contact

SecuTix permet désormais l'enregistrement et la suppression d'alias (cartes de crédit) dans le module Vente. Un alias enregistré peut être ensuite utilisé au moment du paiement dans les modules "Vente" ou "Vente rapide" ou dans le cadre des processus de [ventes automatiques](#) introduits dans Piz Bernina V2 dans le cas où l'opérateur dispose des privilèges nécessaires.

Enregistrer une carte de crédit

Il existe deux processus possibles pour cela.

Depuis le panier

1. Cliquer sur l'icône carte de crédit.

The screenshot shows the 'Sales - reservation' interface. At the top, there's a 'Contact search' bar and a 'RESERVATIONS' dropdown. Below this is a 'CONTACT' section with a list of contacts. The first contact is 'Milicevic, Miso [5515801]' with a credit card icon highlighted by a red box. Below the contact list is a 'Contact detail' section with a 'Ticket delivery' tab. The 'Ticket delivery' section contains fields for 'Mode' (Immediate printing), 'Contact' (Milicevic, Miso), 'Address' (Place De Europe 9, 1003 LAUSANNE, SWITZERLAND), 'E-mail' (miso.milicevic\$secutix.com@!), and 'Immediate printing' (yes/no). There are 'ADD' and 'CHANGE' buttons next to the 'Contact' and 'Address' fields. Below this is a 'Document shipping' section with 'ADD' and 'RESET' buttons. At the bottom, there's a 'Contact origin' section.

2. Cliquer sur ajouter une nouvelle carte.

2. Cliquer sur ajouter une nouvelle carte.

The 'Alias management' window displays a list of credit cards. The first card is a VISA card owned by MISO MILICEVIC, with a masked card number 'XXXX XXXX X000 3' and an expiration date of '1/2018'. A 'DELETE' button is located to the right of the card details. At the bottom right of the window, there are two buttons: 'USE NEW CARD' and 'OK'.

3. Saisir les informations de la carte de crédit.

The 'New card alias' window is used to enter credit card information. It features logos for VISA, Mastercard, and AMERICAN EXPRESS at the top left. The form includes the following fields:

- Card number ***: A text input field containing '4900000000000003'.
- Card end date ***: Two dropdown menus for the month and year, showing '01' and '2018' respectively.
- Card owner name ***: A text input field containing 'MISO MILICEVIC'.
- Validation code ***: A text input field containing '123'.

A red 'OK' button is located at the bottom right of the window.

Activer la fonction de gestion des alias dans le module Vente

L'activation de cette fonction nécessite les points de configuration suivant :

1. Profil utilisateurs de la filière de vente > module contact > entrée "alias management"
2. Votre prestataire de paiement doit supporter la fonction de gestion des alias

Privileges: Administrator (all rights) > Module Contacts
