

Services catalogue

Take advantage of unique ticketing and digital marketing expertise acquired from over 120 projects of all sizes across a whole range of sectors.

Check out our six areas of expertise to find the service you need!

MARKETING

Whether you're looking to boost your digital marketing campaigns, make better use of your contact and sales database or increase integration between your social networks and ticketing operation while improving activity tracking and analysis, our expert teams are here to help you achieve your goals.

"The SecuTix Marketing Team gave us an objective expert view on digital marketing and on getting the most from the tool as well as sharing their knowledge of best practice in optimisation and sales and marketing strategy."

Chris Wolf, Sales and Marketing Director, Lausanne Hockey Club

INTEGRATIONS

SecuTix 360° is an open technology ticketing platform. We've built this into its DNA to guarantee you the best possible integration with third-party systems. SecuTix 360° is easy to interface with your existing ecosystem and digital third-party technologies. Our APIs provide transparent integration between your corporate website and your ticketing for a superior customer experience. Our experts help you implement your integration projects step by step. Take advantage of the best that technology has to offer, without compromise.
