Loqate

Description

Whether you are looking to cleanse data in your back-office systems, capture accurate data upfront or perhaps a combination of both, Loqate combines the richest global data with innovative technology to ensure you hold only the best quality data and can provide users with an enhanced experience.

Their connection to SECUTIX allows to reach any address in the world in as little as 3 keystrokes and as quick as 150 milliseconds. Suggestions to auto-complete the address are immediately provided as soon as the user begins typing.
