Period start (days before visiting)

Period end (days before visiting)

Then, if you want to apply shipment fees, you must create them in this screen.

Each fee can be applied to a specific shipment mode (typically delivery by Post). A series of option enable you to remove the fee if the cart is above a given amount or made exclusively of complimentary products.

Status Visible

In the Shipment fee table, you determine a date range during which this fee applies. You can also decide that this fee applies for each ticket or for the entire order (if NO is selected).

If the fee is NOT mandatory, the back office operator will have the possibility to modify the fee amount when doing the order.
