How to find and share SECUTIX device Manager Logs

When you encounter a problem related to peripheral devices and/or printing, our Support Team may need you to send the logs of the day when the issue first happened. Our Support Team might contact you requesting logs from a specific date and time to carry out a thorough analysis and triage.

To obtain these logs, go to the SECUTIX device manager icon (bottom right corner), right click, and select "Logs":

A window should open and display all available logs:

devicedrivers-manager-2020-03-24.log	24/03/2020 17:47	Document texte	0 Ko
